

Families First of the Greater Seacoast in Portsmouth, NH, used a grant from BJCF to purchase dental supplies — making it possible to treat over 2,200 children from low-income families.

We Love Making People SMILE

Difficult Choices

Families that are uninsured or that lack sufficient health coverage sometimes don't have the means to receive appropriate and prompt dental attention — often putting off necessary procedures to put food on the table and pay bills.

How BJ's Charitable Foundation® Helps

Underwriting efforts toward assuring that families receive professional dental care, supplies and oral hygiene education are just some of the ways BJ's Charitable Foundation® (BJCF) is able to help make a difference in the communities we serve. Grants from the BJCF to local organizations, like those pictured here, offer real and immediate solutions.

BJCF's grant to **La Red Health Center** was used to purchase dental equipment for the facility's new Oral Health Services program, which provides care to underserved residents in Sussex County, DE.

BJ's Charitable Foundation® Is Here in Your Community

BJCF's mission is to enrich local community programs that primarily benefit underserved children and families through grants in four key areas: healthcare, self-sufficiency, education and hunger prevention. We support worthy efforts in all 15 states where our Clubs do business and are happy to partner with great causes like these.
