Post Until: 6/21/2022

Dear Valued Customer:

December 20, 2021

This letter is to inform you that following close coordination with the U.S. Food and Drug Administration Fresh Express has today announced a recall of branded and private label salad products manufactured at the Streamwood facility during the time period of November 20 through December 16 due to a potential health risk from *Listeria*. Recalled items show **product codes Z324 through Z350**. Our records indicate that you DID RECEIVE the recalled product.

We are requesting all customers who received the recalled products to immediately remove them from store shelves and all inventories. Please complete the attached Confirmation of Product Disposition Form and return it promptly to Fresh Express as directed on the form.

The recall was necessitated when a random sample test of a single package of expired Fresh Express 9 oz. Sweet Hearts salad mix with an expiration of 12/8 conducted by the Michigan Department of Agriculture yielded a positive result for *Listeria (monocytogenes)*. Out of an overabundance of caution, we immediately halted all production at Streamwood and a full sanitation review by a specialist firm is underway. We are hopeful the review will be completed so we can restart Streamwood production soon.

No other Fresh Express products are being recalled.

We are drawing upon the full Fresh Express network to manage the temporary break in supply and to ensure customer needs are met.

We greatly appreciate your cooperation during this event and value your ongoing support.

Sincerely,

Fresh Express Incorporated
