Company Announcement

Kader Exports, with an abundance of caution, is recalling certain consignments of various sizes of frozen cooked, peeled and deveined shrimp sold in 1lb, 1.5lb., and 2lb. retail bags. The product has been distributed nationwide from late February 2020 to Mid-May 2020 because it has the potential to be contaminated with *Salmonella*.

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

The affected product details are as below. The brand names of the products are: AQUA STAR RESERVE/ CENSEA/ FRESH MARKET/ KIRKLAND/ TOPS/ UNISTAR/ WELLSLEY FARMS.

Products not bearing these codes are not affected or involved in this

recall.

There have been no reports of any illnesses to date associated with these cooked shrimp distributions. However, cooked shrimp imported by Kader Exports was tested by the FDA and found to contain *Salmonella*. Kader Exports did not distribute and have agreed to voluntarily destroy cooked shrimp found violative. The probable root cause for this recall is cross contamination. The company has eliminated the source of contamination and preventive steps were taken.

Based on known consumption patterns it is believed most if not all the distributed products have been consumed, and any remaining product has been placed on hold subject to further evaluation.

Consumers who have purchased the above product are urged to return them to the place of purchase for a full refund. Consumers with questions may contact the company at +91-022-62621004/ +91-022-62621009, Mon-Fri 10:00hrs -16:00hrs GMT+5.5.
