

For your safety and the safety of our Members and our Optical Team, a face covering must be worn in order to conduct eye exams or eyewear fittings.

Please do not come in for optical services if you are not feeling well.

We are committed to using personal protective equipment in accordance with CDC and OSHA recommendations including:

- Gloves
- Masks
- Face Shields
- Breath guards on testing equipment
- Hand Sanitizer and appropriate surface cleaner

We are following rigorous sanitation protocols:

- Social distancing with floors marked accordingly
- Products and surfaces consistently sanitized after each use
- Paper free environment
- Limiting the number of Members in the optical space
- Limiting interaction to the Member (patient) only

We appreciate your patience and are grateful for your support.
